14:00	Feedback
14:30 - 15:00	Awards

FAQ (2020)

- **How can I participate?**

We are sorry but this year the HackFest is ONLY open to those who participate in the Summer Campus in the previous days. All Summer Campus participants automatically take part in the HackFest.

- **Where is the HackFest located?**

This year the HackFest is on-line. This means from your home where you have a good internet connection. You could also be near the beach, or in the mountains, but you must have a good internet connection.

- **Is an agenda of the HackFest available?**

Yes, take a look to NeaPolis Innovation website. The HackFest is on Saturday 5 September from 9am to 5pm and continues on Sunday 6 September from 9am to 3pm.

- **Do I need to be in a team?**

Yes you will continue to be in the same team as the Summer Campus.

- **Will I have fun?**

Yes.

- **How is the HackFest organized?**

There will be three collaborative challenges:

1. Get your team project running on STM32 Nucleo including the “latest” requirements.
2. HackFest Knowledge Challenge.
3. HackFest Mystery Challenge.

- **What is non-stop team “speed dating” in the Agenda?**

This is a sort of “speed dating” where all the other teams and the evaluation committee get to evaluate and vote on your project. The same applies for all teams.

- **Is lunch available?**

No, we are sorry but this year you will miss out on the great Italian food from the HackFest canteen including the freshly made pizzas and local coffee. However your Tutors have been granted special privileges and will be sure to keep you informed.
